CALAMITY AT NAPLES

MOUNT OLIVETO MARKET FALLS
BENEATH WEIGHT OF ASHES
FROM VESUVIUS.

TWELVE PEOPLE ARE KILLED

SCORES OF OTHERS BADLY HURT
BY BEING CRUSHED UNDER
THE MASS OF DEBRIS.

Naples, April 11.—Weakened by the weight of sand and cinders from Mount Vesuvius, the Mount Oliveto market, which covered a plot of ground 600 feet square, fell during the day upon 200 or more persons, many of whom were crushed and mangled beyond recognition. Twelve were killed, 2 mortally injured, 24 dangerously and 100 less seriously injured. The scenes in the vicinity of the ruins were agonizing, relatives of the victims clamoring to be allowed to go to their dead or dying. Only by the firm intervention of the police and carabinieri was it possible to keep the crowd from overwhelming those who were engaged in the work of rescue.

While early in the day the activity of Mount Vesuvius appeared to have diminished, as night approached the prospect of immediate relief faded, and the fate of the villages and towns grouped around the volcano seemed more hopeless. Instead of decreasing, the fall of sand and ashes emitted from the crater increased. Even with the sun shining, the light was a dim yellow, in the midst of which the few people who remained in the stricken towns, their clothing, hair and beards covered with ashes, moved about in the desolation like gray ghosts.

The case of Torre del Greco is typical. For thirty hours the place has been practically deserted, but amid the ruins and a semi-darkness illuminated from time to time by vivid flashes of lightning, a few of the inhabitants go about hungry and with throats parched with smoke and dust, seemingly unable to tear themselves away from the ruins of what so recently were their homes.

Communication by Rail Impossible.

Communication by rail or tramway with Torre del Greco and Torre Annunziata is impossible, owing to the cinder, sand and ash deposits. Railway travel to and from Naples is much hampered by the same conditions, and a collision during the day resulted in the injury of about twelve passengers. Telegraphic communication with the towns farthest in the danger zone also is interrupted.

The flow of lava from the volcano, which had almost ceased during the night, recommenced early in the day and the fall of volcanic ejecta in the Vesuvian communes has been enormous. It is feared that the weight of ashes on roofs will cause the collapse of many more buildings.

King Victor Emmanuel and Queen Helena have forwarded to Premier Sonnino, who is here, \$20,000 to be applied toward the relief of the sufferers.

The number of dead taken from the church at San Giuseppe, which collapsed Monday while a congregation of about 200 persons were attending mass, is twenty-six. There were seventy-nine severely injured.

The troops are utilizing the railway carriages as camp hospitals. The Red Cross society has established a hospital in the vicinity of San Giuseppe.

The volcano is resuming activity, especially at Cercola. The stream of lava which started anew in the direction of Torre Annunziata reached the cemetery of that town and then turned in the direction of Pompeii.

Storm of Sulphurous Rain.

A violent storm of sulphurous rain occurred during the day at San Giuseppe, Vesuviana and Saviano.

At Ottajano, San Giuseppe and Vesuviana the troops are clearing the ruins, demolishing tottering buildings and re-establishing communications. Entire families perished and terrible scenes occur when refugees return in search of missing relatives, whose bodies are unrecognizable.

Signor Matteucci, the director of the observatory on Mount Vesuvius, states that new small craters and fissures, which opened at several points, are likely to contribute to a diminution of the eruption, as they afford necessary outlets.

The ashes and cinders that fill the air are causing much eye trouble, many persons in the worst affected districts being threatened with blindness.

A great eruption of sand is now observed on the east side of the main crater. This is worse than ashes, as it is heavier. The direction of ashes

seems to have diminished.

Fresh shocks of earthquake are being felt, especially in the direction of Ottajano, Somma and Nola. Fortunately the great amount of ashes on the ground seems to have counteracted the telluric action of the shocks. Another part of the main cone of the volcano has fallen in, causing a great discharge of red-hot stones, flame and smoke.

Reports from Sicily state that ashes from Mount Vesuvius are noticeable there.

GORKY IN NEW YORK.

Famous Russian Novelist Discusses Affairs in His Country.

New York, April 11.—"I don't know how long my stay in this country will be, but of this I am sure, that while here, I will try to do something for my fatherland."

Maxim Gorky, the Russian novelist, made this statement in his cabin on board the Kaiser Wilhelm der Grosse, which arrived during the evening after a rough passage.

Gorky, who was registered in the passenger list under his real name of Peshkoff, was accompanied by his wife and a secretary.

The steamer was boarded at Quarantine by a large deputation of Russians, representing many different political parties. Chief among these was Gorky's adopted son.

Gorky received them on the upper deck and seemed almost overcome at meeting so many friends. At first he declined to talk for publication, saying he was too fatigued, but later he said:

"I do not believe in the douma nor in the present method of holding elections. That the douma will bring Russia quiet and prosperity I do not believe. The actual condition of the revolution in Russia is this: In more than twenty-two provinces the people are starving to death, using all the money they have and receive to buy arms with. The attitude of the church is very interesting, considering the people's hate and distrust of the church. In the present revolution the country priests are actually the leaders of the peasantry. If the revolution should succeed Russia will go the way America went—that is, a federation. We have so many nationalities in our large empire that a federation would be the best solution. What will become of the czar in that case? Well, I suppose nothing. One of the most important men in recent events, of course, was Witte. He is devoid of talent, power and honesty and in our opinion is a scoundrel.

"The Jews will not suffer in case Russia should become a republic."

AFTER THE PACKERS

PRESIDENT ROOSEVELT SEEKS
TO HAVE INDIVIDUALS
PUNISHED.

Chicago, April 11.—President Roosevelt has once more taken a personal hand in the prosecution of the packers, according to the Chicago Chronicle, and the result is apparent in a resumption of activity on the part of the local federal officials. It has been announced that the effort to punish the packers as individuals is to be renewed with promptitude and vigor.

This is under direct instructions from District Attorney Morrison from the president and Attorney General Moody. Attorney Morrison has been directed to proceed against the packers under the injunction of Judge Grosscup of the United States circuit court and also to seek new indictments before the next federal grand jury. The government agents are now at work securing information which is to be used as a basis of complaint before the grand jury next month. This evidence, it is said, will sustain a charge by the government that the packers as individuals have violated the injunction of Judge Grosscup. Several railroad officials have responded to questions put to them by government agents and the information secured from the railroad men together with information volunteered by former and present employees of the packers, was declared by one of the federal officers sufficient warrant for the return of indictments against the packers.

Absolute Quiet Prevails.

Windber, Pa., April 11.—Absolute quiet prevails here in the mining situation, the only thing that marred the peace being a couple of shots fired by a boarding boss, who was promptly arrested and taken to jail at Somerset.

Destructive Fire in Kansas.

Wichita, Kan., April 11.—The business portion of Belle Plains, twenty miles south of here, was practically destroyed by fire at night, causing a loss of \$10,000.

Would Abolish Raines Law Hotels.

Albany, N. Y., April 11.—Governor Higgins has signed a bill which has passed the legislature and which is designed to do away with "Raines law" hotels.

H. F. MICHAEL CO'S Daily Store News

Of course you will like our neckwear.

You just can't help it for it is neat and slightly and has that dainty appearance that at once pleases. Among it you will find:

HAND MADE TATting turnovers and collar and cuff sets; these are something new and are much daintier than the ordinary turnover as they serve the purpose and yet do not obscure the ribbon. Turnovers sell at 50c—the sets at 75c.

FOB RIBBON COLLARS. Ours is indeed a pretty line to select from. Bayadere stripes, Roman stripes, embroidered ribbons with fancy edges and a number of other neat kinds from which to make your collars. They sell from 15c to 50c the yard.

TURNOVERS and collar and cuff sets in a large variety of styles are shown. These are not expensive; they sell from 10c to almost any figure you may wish and a good assortment is shown in each quality.

RIBBONS. Our ribbons for the hair and neck are most splendid in style. Our 4 inch wide taffeta ribbon at 15c is a favorite and 4 1/2 inch plain or changeable ribbons at 22 1/2c will appeal to those wishing big values.

Just take a look at our new hosiery.

If you admire pretty lace and embroidered hosiery you simply cannot afford to miss seeing our line. The prettiest conceits you have ever seen, are shown. The best part about this line is the reasonableness of the prices; you are not made poor in the possessing of it either.

By the way; do not miss seeing our ladies' hosiery at 10c, 15c or 25c. Popular prices but splendid qualities.

Ours is the store where you buy Easter gloves.

DEFERS HIS DESCENT

DOWIE WILL NOT ADVANCE UPON
THE HOSTS OF ZION AS
SUD-
DENLY AS EXPECTED.

SEEKS THE AID OF THE LAW

CONFERS WITH ATTORNEYS IN
CHICAGO AS TO THE BEST
COURSE TO PURSUE.

Chicago, April 11.—Dr. John Alexander Dowie will not advance upon the "hosts of Zion" as suddenly as he expected. During the evening, after a long consultation with his legal adviser, he said that it might be several days before he sees fit to enter the city which he founded.

"The first apostle" arrived here in the morning. An immense crowd was at the station to greet "Elijah II." He was in the best of spirits and joked with a number of newspaper correspondents.

Escorted by a number of loyal followers, he made his way to the end of the train. He was greeted with an assortment of welcomes ranging from the reverend "Peace be with you" of the Zionists to the more jocular "Good boy, Dowie," of the curious members of the throng. The crush was so great that the police protection proved inadequate and Zion guards had to fight vigorously to get their leader to his carriage.

Just before he reached the vehicle, a man sprang past the bodyguard and waved a document in Dowie's face. The Zion guards lifted the intruder from the station floor and threw him bodily over a nearby railing. It was afterwards learned that the man was a deputy sheriff who was endeavoring to serve Dowie with a summons in a civil suit in which a medical expert claimed that fees to the extent of \$500 had been due him for several years.

Disturbed Dowie Very Little.

The incident disturbed Dowie very little and he was driven to the Auditorium Annex, where apartments had been secured for his party. After a short rest Dowie summoned his legal advisers and then ensued a conference which lasted the greater part of the day.

Just what proceedings will be made to reinstate the "first apostle" in Zion City was not definitely stated, but Dowie did state emphatically that there would be no compromise with Voliva and that Dr. John Alexander Dowie must be the leader of Zion or nothing at all.

This same determination of spirit was shown at Zion City during the evening when the business committee of twelve appointed by Voliva decided to send to all branches of the church throughout the world the following order:

"Officers, members and friends of the Christian Catholic Apostolic church are directed not to send any more money for Mexican land warrants."

Regarding the order W. H. Piper, one of the overseers, said:

"The step was taken because of a desire to completely block Dowie's Mexican scheme and at the same time remove all chances for his access to funds. The Mexican contributions are the last resort, control of them being in the hands of Deacons John A. Lewis and Fielding H. Whitte, Dowie's friends, who are officers of the plantation association."

SMASHUP IN WITTE CABINET.
Both the Russian Premier and Interior Minister May Retire.

St. Petersburg, April 11.—Rumors of a complete smashup in the Witte cabinet are everywhere current. Many well informed persons believe that the fight between Premier Witte and Interior Minister Durnovo will result in the retirement of both, but no change will take place until the pending loan negotiations have been completed. Finance Minister Shipoff and Minister of Commerce Federoff also are said to be slated to go. M. Vermoloff, former minister of agriculture, who holds extremely liberal views, is regarded as the most likely to be appointed as Count Witte's successor.

The Russkoe Gosudarstvo, the official organ, strikes a menacing note in a remarkable article entitled "At the Rubicon" laying the onus of the attempts to prevent the convocation of the national parliament on the revolutionists and appealing to the representatives to come together not as extremists, but in a sober, constructive spirit. In this case, the article says, reforms may be accomplished as the parliament will not be gagged; but the warning is given that a "discordant note will spoil the music" and lead to the dissolution of the parliament. The article, advertising to the recent assassination of the governor of Tver, holds that that event constitutes a justification for continued repression, "not as a governmental caprice, but as a hard necessity."

TRY TO LYNCH A NEGRO.

New Yorkers Enraged at His Attack Upon a Woman.

New York, April 11.—Infuriated by a brutal assault by a negro at night on Miss Isabel Oliver, a resident of Alabama, passengers on a Ninth avenue elevated train made a desperate attempt to lynch the negro, who was only rescued when a policeman fought his way into the car and held the crowd at bay with his revolver. Miss Oliver was holding to a strap when the negro lurched against her. She requested him to be more careful and he struck her in the face, splitting her nose, blackening both her eyes and knocking her down.

Men rushed on the negro, raining blows on him and shouting "lynch him." The negro managed to defend himself until a station was reached, when a policeman boarded the car and after a hard fight dragged his prisoner out. In the stationhouse Miss Oliver sprang at the prisoner and attempted to stab him with a hat pin.

MADE TO THE MINERS

ANTHRACITE OPERATORS SUBMIT A NEW PROPOSITION TO THEIR EMPLOYEES.

New York, April 11.—The anthracite operators at their conference with the mine workers here during the day declined the proposition to have the conciliation board arbitrate all grievances submitted by the wage workers. They made a counter proposal that the commission appointed by President Roosevelt in 1902 be requested to decide whether any changes in conditions in the hard coal region have occurred which required that the award of the commission should be modified. The mine owners limit the inquiry to two grievances—wages and a method for the adjustment of complaints. The miners have taken the proposal under consideration and may give the operators an answer Thursday, when another conference will be held. In the meantime the miners' committee of thirty-six will hold sessions and agree on a reply and the operators will remain idle awaiting developments.

In connection with the day's difference George F. Baer, chairman of the mine owners' sub-committee, made public a letter sent to the committee by the independent operators in which they give their views on the situation and express their firm conviction that any "agreement to arbitrate with the United Mine Workers will be an unjustifiable surrender to anarchy and mob violence."

The letter came as a great surprise to the miners and did not tend to bring the contending parties closer together.

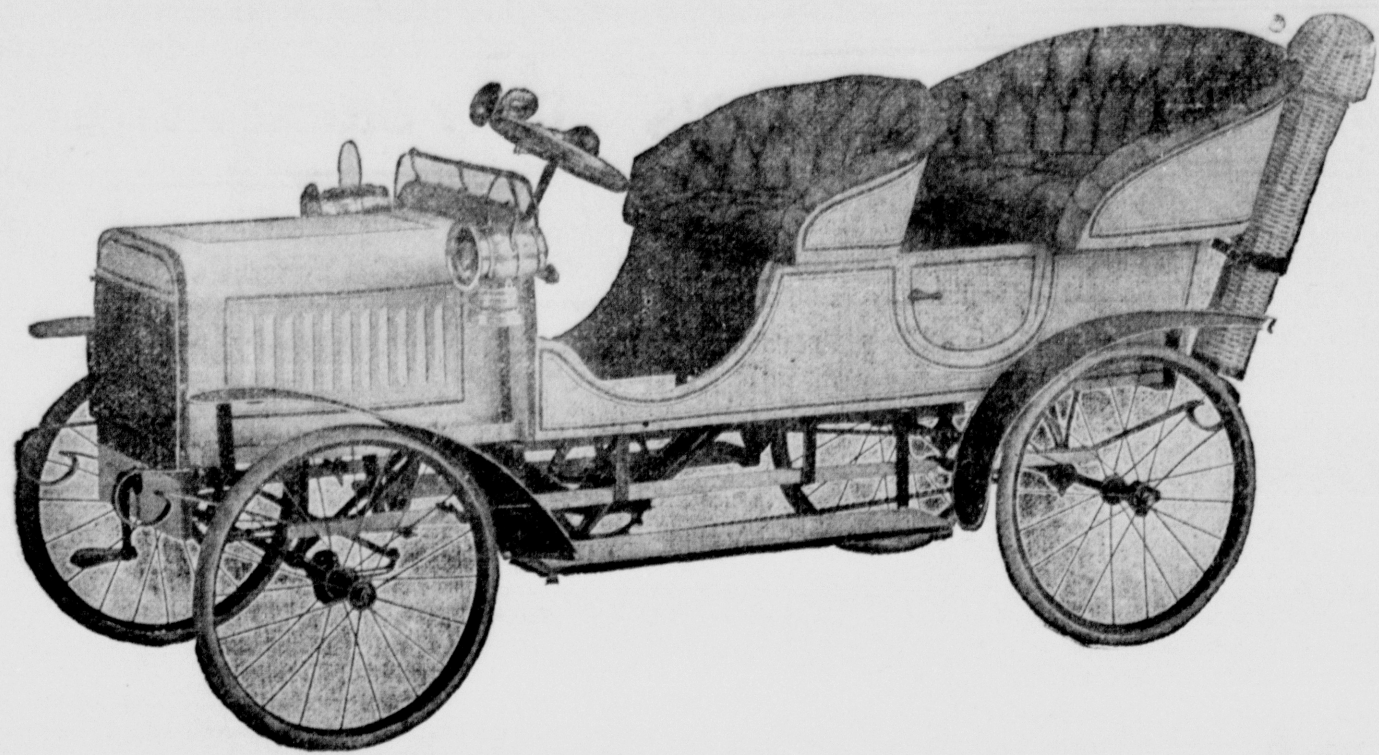

Although both parties are now committed to arbitration, they are still far apart. But confidence is expressed on all sides that a peaceful settlement will be brought about. There is every indication that the counter arbitration will not be accepted by the miners as presented, although they view with favor the operators' selection of the anthracite strike commission. The old tribunal will be accepted by President Mitchell, if he can induce the coal companies to widen the scope of the inquiry.

The endeavor of the operators to eliminate all except two of the miners' grievances was a keen disappointment to the men and if their attitude can be taken as an indication of their action, they will fight hard to have some of their other demands taken up, such as an eight-hour day, the weighing of coal and the check-off. If the scale committee cannot come to an agreement with the operators it is not unlikely that a convention of the miners will be called to further instruct the committee.

Swallows Acid by Mistake.

Grand Forks, N. D., April 11.—Thomas W. Schlager, aged fifty-two years, brother of Mrs. D. M. Holmes and County Commissioner F. W. Schlager of this city, came to his death through a draught of carboic acid, which he swallowed thinking that the bottle contained a cough remedy.

If we continue to get as many candidates for governor in the next two weeks as we have in the past the hotel accommodations at Duluth will be taxed to supply headquarters.

A BREWERS combine in Ohio and Pennsylvania will be capitalized at \$5,000,000 and the Duluth News-Tribune remarks that there will be no water in the stock but somewhere in the neighborhood of \$3,000,000 of foam.

NEW JERSEY is investigating the peat beds of that state through the state geologist. A thorough investigation of the peat deposits of Minnesota might develop an industry that would be profitable and in times of fuel famines occasioned by strikes in the coal regions would be very handy.

A PARTY of railroad surveyors are at work in the eastern part of Aitkin county. There are twenty men in the party and every man in the gang claims to be ignorant of whom they are working for or where they are going, although the wise ones guess that the party has been sent out by the Soo.

A THOROUGH cleaning up of the city at this season of the year will do more to improve its appearance than anything that can be done, and from a sanitary standpoint back alleys and back yards should be relieved of the accumulation of the winter's filth at once. The city has started the ball rolling by putting a force of men on the streets, now let the general public fall in line on their own premises.

UNDER the new law a notice of 34 days will have to be given by county committees before the primaries are held to elect delegates to county conventions. This makes it necessary for the call to be issued and printed before the 30th of the present month. Under the old law but 20 days were necessary, but the attorney general has been consulted in the matter and he holds that to be on the safe side the new interpretation of the law should be followed. It is also necessary for the caucus notices to be posted 26 days previous to their date. The republican state central committee has fixed the date for holding the caucuses on June 24, and the county conventions on June 6th, at which time delegates will be elected to attend the state convention at Duluth on June 13th. Crow Wing county will be entitled to twelve delegates, the basis of representation being on the average vote for the state ticket at the last election. In order to arrange for the calling of the caucuses and the county convention in this county the committee will be called together to meet at the court house in this city on Wednesday of next week, April 18th.

C. N. Schwartz, engineer on trains 5 and 6 between Staples and Fargo, and for many years a resident of Brainerd, has received a telegram calling him to Rochester, Minn. Mrs. Schwartz recently underwent an operation there and the telegram stated that pneumonia had set in and asked him to come at once.

C. B. Rowley feels that he is as good a citizen as the average man but he has not reached the height of patriotism that will permit him to look with equanimity, to say nothing of pleasure upon the summons received by him to serve on the United States grand jury at Mankato. He is summoned to appear there April 24, and as he has bids in on several large structures the contracts for which will be let in the near future it may cause serious loss to him.

AL. G. FIELD MINSTRELS.

The Al. G. Field Greater Minstrels will be closed this season with a spectacular song and dance act entitled, "The Dance of the Nations." This act will run thirty minutes. During its progress about ten dances will be introduced. Each dance will be typical of a particular country silhouetted against a background in keeping with the atmosphere of the dance. There will be songs to develop the story that lies behind the scene. Indeed the act is a series of atmospheric little sketches drawn to the accompaniment of song and dance. There is the picturesque

Indian village set away among the hills of the Columbia river, a sunset upon the River Doone of Ayreshire, near Bobby Burn's cottage, battle ships at anchor, the valley of the Spooks, and an old southern plantation, with the old folks at home. Then there are the Highland Fling, the Sailors' Hornpipe and Indian dance, a clog, a negro hoe-down and quadrille, the dance of the pumpkin men, etc. The following dancers will be seen in this act: "Doc," Quigley, Hebbert and Rodgers, Tommy O'Dell, John Whalen, Jack Sully, Sylvester Reardon, Nick Huffard, Bernard Granville, etc.

LOSSES ARE ADJUSTED

The losses in Opera House fire are Now Adjusted—Also on Hervig House in Mill District

The insurance adjusters have been busy the last few days. The city has been allowed the full face of the policy, \$700 on electrical supplies. The damage to the furniture in the second story, occupied by the city clerk and municipal court is being adjusted. The smoke stained all the furniture so that it will have to be scraped and refinished. The loss on the opera house building was adjusted at \$986. Magnus O. Hervig, whose residence in the Mill district, burned the same night as the opera house fire, was allowed his full insurance, \$800 on house and \$400 on contents.

STATE LAND SALE IS TOMORROW

Parties From Southern Minnesota, Iowa and Illinois are Beginning to Come in

MANY GOING DIRECT TO LANDS

Parties are Reported as Going to Smaller Towns to See Lands Before Sale

Tomorrow is the day of the state sale of lands in Crow Wing county. The sale will be held at the court house in Brainerd and it is expected that there will be a large number of bidders present. Parties are arriving on every train and nearly every land man has one or more parties out looking at lands. Several who were attracted by the state sale have already purchased land of private parties and are returning home. It is expected that a large number will come down from Aitkin tonight, a sale of state lands being on there today. Most of the parties in so far seem to be looking for improved farms and will deal with local men rather than buy state lands.

The fact that the state reserves all mineral rights is having a tendency to discourage speculative buying. While it will have a dampening effect on the sale it is probably a wise policy, as it keeps the big iron companies from gobbling up the land.

EDITORS DISPATCH:

Through the columns of your paper I have found out the cause of my clerks leaving me. I do not deny that I signed the early closing move, but three months of early closing has satisfied me that I had done the wrong thing, and if anyone will take the trouble of going to the express and freight offices, he will find what it has done for the Brainerd merchants. My little business has dropped off at a rate of \$163.16 per month with those two honorable gentlemen in my employ, and I saw it would not do, and so I took the action I did, and I intend to attend to my own business from this time on, and keep my place open as I see it to the benefit of my business.

Yours Respectfully,
J. F. DYKEMAN.

Des Moines, Ia., April 11.—An all-day session of the Iowa joint conference of miners and operators here brought no results save to make both sides more determined in their demands—the miners for an adjustment of the wage scale on the 1903 basis; the operators for a resolution protecting them against local strikes.

300TH ANNIVERSARY

C. D. Herbert Receives Handsome Announcement of Celebration at Norfolk, Virginia

Chief Yeoman Frank Herbert has sent to his father, C. D. Herbert, a handsome hanger advertising the Jamestown exposition to be held in 1907 in celebration of the 300th anniversary of the first permanent English-speaking colony in the United States. The features of the exposition will be maneuvers by the army and navy, a reproduction of the famous fight between the Monitor and Merrimack, pioneer settlements, etc.

Mr. Herbert, who has been assigned as chief Yeoman to the new battle ship Virginia, which goes into commission in June, is now engaged in getting a crew of 800 men ready for her.

BAD WRECK ON GREAT NORTHERN

Passenger Train Crashes Into Box Cars on the Main Line Near Cass Lake

THE ENGINEER WAS KILLED

Fireman was Badly Injured and Engine is Demolished—No Passengers are Hurt

Great Northern passenger train No. 33, east bound, which passed through Bemidji at 12:30 a. m. today was wrecked about a mile from Cass Lake by striking two box cars that had got out of the switches onto the main track. David Flaherty, the engineer, was instantly killed and the fireman, whose name could not be learned, was badly injured. The entire train, including the engine held to the rails and what might have been an appalling disaster was averted. None of the passengers were injured beyond a severe shaking up. It is not known how the cars got out on the main line.

Valuable Dutiable Goods Said to Have Been Smuggled.

San Francisco, April 10.—The Evening Post publishes a story to the effect that a strong belief that dutiable goods valued at about \$750,000 were smuggled ashore in launches from the battleship Oregon just before she departed for the Bremerton navy yards. It says that an order has been issued instructing inspectors at Bremerton to delay every man of the battleship until the whole matter has been sifted to the bottom and the customs authorities throughout the country have been notified to find and examine the questionable packages if possible.

M. K. SWARTZ,

ATTENTION OF SENATE

HELD BY MR. BAILEY DURING HIS
SPEECH ON THE RAILWAY
RATE MEASURE.

FEW SENATORS ARE ABSENT

MANY MEMBERS OF THE HOUSE
LISTEN TO A LONG ADDRESS
BY THE TEXAN.

Washington, April 11.—For more than four hours during the day Mr. Bailey held the undivided attention of the senate with a speech in reply to Mr. Spooner and Mr. Knox and just before its conclusion there was significant suggestion from Mr. Hale indicating the possibility of an understanding and an early vote on the railway rate bill. The day was one of the most notable in the recent history of the senate. Very few senators were absent at any time during the day and every seat in the galleries, public, private, senatorial, diplomatic and executive, was held by its occupant with marked tenacity. Many members of the house of representatives also crowded into the senate chamber, some of them standing lined up against the walls for hours without a perceptible change in their positions. Several of the senators and many more spectators went without lunch rather than miss any part of Mr. Bailey's speech and at its conclusion the speaker was congratulated by many of his colleagues of both parties.

There were comparatively few interruptions during the day and there was no effort at applause until the close of the discussion, when there was a spontaneous burst of handclapping in the galleries, which the vice president was unable for a time to check.

The close attention given throughout the four hours was all the more marked in view of the legal character of the argument. Mr. Bailey set out with the one end in view of establishing the soundness of his contention that congress has power to deny to the inferior United States courts the right to suspend the order of the interstate-commerce commission pending the final disposition of cases arising under the proposed law. This he undertook to do by citing innumerable decisions of the courts and quoting many other authorities. These citations were interspersed with his comment. Mr. Hale announced his willingness to accept the anti-suspension amendment and expressed confidence that if Mr. Bailey would on the other hand agree to a broad court review there would be comparatively little difficulty in reaching an agreement on the bill. In response Mr. Bailey said that he did not believe that review by the courts could be denied under the Constitution.

TOWNE AND BEDE TALK.

Both Warmly Congratulated on Their Speeches.

Washington, April 11.—The house for seven hours during the day had under consideration the postoffice appropriation bill, but in only a few instances were the provisions considered. During the debate on the special appropriation for railway mail pay, bitter words were exchanged between representatives from North Carolina, Arkansas and Kentucky, but all were within the rules of the house. A humorous speech was made by J. Adam Bede (Minn.), and Charles A. Towne (N. Y.), who spoke in behalf of the Jamestown exposition. Both Mr. Bede and Mr. Towne represented the Duluth district in Minnesota in other congresses. They were warmly congratulated on their speeches.

ASPHYXIATED HER LITTLE SON.

Wife of a Government Clerk Also Tries to End Her Own Life.

Los Angeles, Cal., April 11.—Mrs. Kate B. Raymond, wife of Frank Kellogg Raymond, a clerk in the interior department at Washington, early in the morning turned on the gas at her home in Hollywood, a suburb of this city, after carefully locking all doors and windows and asphyxiated her fourteen-year-old son, Frank, who was sleeping in the room, and very nearly ended her own life. Physicians who are attending her say she may recover.

The deed had been carefully planned. The woman left two letters, one addressed to her mother and the other to a neighbor. In her letter to her mother she said she and her son would be better off dead.

For Widows of College Professors.

New York, April 11.—Announcement that the widows of college professors may be pensioned under the terms of the \$10,000,000 gift of Andrew Carnegie to the Carnegie Foundation was made during the day by the trustees. A pension not to exceed one-half the pension of a professor may be paid to his widow, but it will cease on her remarriage.

Two Killed by a Train.

Pittsburg, April 11.—While returning from an entertainment at Elizabeth early in the day, John Bucy, aged twenty-two years, and Margaret Allshouse, aged seventeen, were killed by a Pennsylvania freight train near Clairton, Pa.

PASS NEW YORK SENATE.

Two Bills Proposed by Insurance Investigating Committee.

Albany, N. Y., April 11.—Two of the bills proposed by the special insurance investigating committee passed the senate unanimously during the day and now await only the signature of Governor Higgins to become law. One amends the general corporation law relative to the acquisition of real property by life insurance companies. The other amends the penal code so as to penalize the giving of life insurance rebates. A third bill, which would amend the penal code so as to provide that the falsity of any statement, alleged in an indictment for perjury, shall be presumptively established by proof that the defendant has testified under oath to the contrary, was amended by the senate so as to restrict its application to written statements under oath. The vote of Lieutenant Governor Bruce, the president of the senate, accomplished the adoption of this amendment, which delays final action upon the bill until next week.

SCHANDEIN WILL CASE.

Three Contesting Heirs Receive Half a Million Dollars Apiece.

Milwaukee, April 11.—The Milwaukee Journal says the settlement of the Schandelin will contest consists of the payment by Mrs. Clara S. Heyl (the principal legatee under the will attacked) of \$500,000 each to Emil Schandelin, Mrs. Ella Schandelin Frank and Erik Heyl, the three contesting heirs.

These payments are to be made in trust and represent roughly one-third of the estate which was left to Mrs. Heyl by her mother's will. The contesting heirs are to receive these amounts in addition to the portions awarded them under the will. The provision made by the will for Emil and his sister, Mrs. Frank, was a life income on certain real estate estimated in value at \$500,000.

The property included in the new trust agreement is to go to Mrs. Schandelin and children, if any, in case of the demise of the husband, Emil.

AMONG SIX RAILROADS.

Bituminous Coal Traffic Said to Be Divided.

Philadelphia, April 11.—That the bituminous coal traffic is divided among six railroads developed during the day at the first hearing of the interstate-commerce commission to determine whether the railroad companies are interested in the oil or coal which is transported over their lines. Four members of the commission are here to conduct the hearings.

The principal witnesses during the day were Upton H. White, statistician of the Tidewater Steam Bituminous Coal Traffic association; W. W. Atterbury, general manager of the Pennsylvania railroad; Joseph G. Seales, traffic manager of the same company, and Theodore Voorhees, vice president of the Reading company. Through these witnesses it was brought out that the Pennsylvania Railroad company, the Reading company, the Beech Creek division of the New York Central, the Baltimore and Ohio, the Chesapeake and Ohio and the Norfolk and Western railroad companies are members of the Tidewater Steam Bituminous Coal Traffic association, which was organized in 1896. The members of the association, it was shown, have an agreement by which each is allotted a certain percentage of the soft coal tonnage.

The commission also brought out the fact that by means of the private car system large mining companies are able to enter into contracts for the delivery of coal at stated periods, while smaller companies who own no such cars are unable to guarantee the exact time when their coal will be delivered.
